

# Electric Compressors

## New and Remanufactured

As part of our ongoing commitment to emerging and evolving technology, Four Seasons® continues to expand coverage for both new and remanufactured electric compressors. The Four Seasons® core strategy of being the best full-line, full-service supplier of premium temperature control products goes beyond the vehicles of today and looks forward to servicing our customer's needs for vehicles of the future.

# Polyolester (POE) Oil

When performing an A/C repair, it is imperative to use the correct refrigerant oil, type and amount. Compatible with both R1234yf and R134a systems, the TEMP Select® POE oil, part number 59890, is formulated for its dielectric properties and low flammability to ensure every job is completed according to OEM specifications.

## Honda and Acura Requirements

Honda and Acura vehicles using R1234yf refrigerant require polyolester (POE) RL85HM oil instead of traditional PAG oil. Four Seasons® compressors that require POE oil will include an advisory label detailing which lubricant should be used, by refrigerant type.

Compressor label pictured below is included on Honda and Acura units as required.

### Refrigerant Oil Type

R134a = PAG 46 Oil

R1234yf = POEyf Oil

86953198

## Acura and Honda Vehicle Applications Affected

Acura ILX (22-16)

Acura MDX (20-14)

Honda Accord (22-18)

Honda Civic (21-16)

Honda CR-V (22-15)

Honda Passport (23-19)

Honda Pilot (22-16)

Honda Ridgeline (23-17)

## Did You Know...

...we have A/C Service Kits for hybrid and electric applications? These kits can be paired with either a new or reman Four Seasons® quality compressor for a successful repair. For a complete application guide on A/C Service Kits, visit [www.4s.com](http://www.4s.com).
