

QUALITY ADVANTAGE COMPRESSORS

DEPENDABLE QUALITY TECHNICIAN'S CHOICE

(15-12) Chevy Equinox, GMC Terrain
VIO: 1.1M+

Four Seasons® P/N 198312

Four Seasons® compressors are put through a strenuous validation process that ensures our customers receive a quality part.

PRODUCT VALIDATION

FOUR SEASONS® UNIT

The Four Seasons® unit is manufactured with precisely drilled and tapped threads for easy installation.

COMPETITOR UNIT

The competitor unit shows signs of sandblasting of the threaded surface. This lack of process control creates a coating that could cause the thread wall to strip, making installation difficult.

QUALITY ADVANTAGE

TECHNICIAN'S CHOICE

Expert technicians know that when they install a Four Seasons® unit, they are getting a quality part that meets application specifications for fit, form, and function.

Four Seasons® P/N 58886

FOUR SEASONS® UNIT

The Four Seasons® unit matches O.E. fit, form and function for easy mounting and installation.

(08-04) Acura TSX
VIO: 148,584

COMPETITOR UNIT

Competitor unit has an extra case bolt mount that makes installation impossible.

Four Seasons® P/N 198396

FOUR SEASONS® UNIT

The Four Seasons® unit has correct rear mounting head for easy installation.

COMPETITOR UNIT

Competitor unit features an incorrect rear head mount requiring the use of a spacer in order to install.

(16-14) Dodge Promaster Series
