**Due to the success of The Deslugger® product line, Four Seasons is pleased to announce an expansion of The Deslugger® offering, P/N 36150, for Ford applications.**

Having the system pulse during initial startup is beneficial to the compressor regardless of where the compressor is mounted. If liquid is pooled anywhere in the system, the compressor will have issues compressing the liquid, making The Deslugger® a valuable component.

*The Deslugger® product line is patented and exclusive to Standard Motor Products.*
